

Rotary Chip Feeder

Specifications

Width	4 Ft. to 11 Ft.
Weight	2630 lbs. to 5300 lbs.
Standard Construction Material	3/8" Mild Steel
Construction Design	24" – 6 Pocket Star Design
	Cold rolled continuous steel shaft
	Double-Row spherical flange block
Plug/Jam Protection For oversized objects	Full width relief gate with pneumatic control
Access and clean out doors	Yes
Engineering Parameters	
- Drive Motor	1800 RPM, TEFC Specs.
- HP	5, 7.5 or 10
Gear Reducer	Dodge TXT helical gear, shaft mounted reducer
Belt Drive	2B Section Belts
